Jazz Piano - The Ultimate Beginners Course for Piano & Keyboard will get you playing some cool jazz sounds in no time at all! Most methods of learning Jazz piano don't cater for beginners. This course takes a fresh look at learning jazz by following simple steps that anyone can use.

We found this book is the type that a student can go through 2-3 pages a week from beginning to end, like a normal instructional piano lessons book (aka method book). In this way, this book is different than other jazz instructional books such as Mark Levine's book or the Jamie Aebersold books, which although great books, are more like reference books.
