"Ask The PPC Manager" showcases the Clicks to Money(TM) system - self-managing Google Ads that make as much money as possible, as fast as possible, for as long as possible, with as little work as possible, for months or years, without paying agen-

cy fees. It is the insider exposé which busts every myth going about Google Ads and the pay-per-click industry. "The world standard in Pay Per Click" - Perry Marshall, 'Ultimate Guide to Google Ads' Money doesn't lie This view is largely heretical in the digital industry. But this is data, not opinion. And money doesn't lie. For the past 15 years, I've seen business owners and PPC Managers make little or no money from Google Ads. All you see is the money you spend, not the money you make. And some agencies charge a percentage of your ad spend, so they make money even if you don't. If this makes you feel angry and frustrated, this book is for you. "Google Ads helped us build, grow, and sell our company" "Ask The PPC Manager" is a real \$21.34m, 19X ROI, 15X business-growth-to-exit, ten year case study told in a fictional setting, inspired by "Built to Sell" by John Warrillow. The owner grew his business every year for ten years, hired more staff, increased his ad spend, bought out two competitors, and sold to an international operator. Could that be your business? "Your PPC campaigns are worthless" This is the story of a fictional airport transfer company and PPC Manager Charlie. The

business is successful, but Charlie now has a problem, with responsibility for selling more seat bookings, making more money, and out-selling their rivals. He finds he has no idea how to build, measure, manage, and scale PPC campaigns, and integrate them into the business and finances to make money. He is on a deadline, realizes he needs help, and as the story unfolds he is given permission to hire an experienced consultant to turn the campaigns around. Clicks to Money Charlie finds Joshua, a Google Ads PPC author and consultant, who lays out an easy to follow plan that enables them to finally make money from their PPC campaigns and transform their business. Many PPC managers build their campaigns backwards. Campaigns actually come last. Your business is numbers. Your PPC campaigns are numbers. Making PPC make money is just math. The key is that the underlying principles behind self-managing PPC campaigns that make money meet three criteria: - It is a learnable skill. When properly understood, architected and built correctly, and with sufficient sales volumes, campaigns can become largely self-managing for months or even years - It makes money, delivering sales

and revenue even while you sleep - It is repeatable and scalable, allowing your business to become "Fully Booked" should you choose, or to grow for as long as demand does Like Charlie, readers can apply the powerful PPC strategies in this book to finally make self-managing Google Ads campaigns which make money without them, and without agency fees. Here's the simple secret to making PPC make money - Track online conversions, sales and revenue - Know your business numbers - Target your buyers - Do the math Free PPC Money Audit(TM) If you qualify, you will also receive the FREE PPC Money Audit(TM) with the author. Many PPC managers offer free audits, but they only look at how your campaigns are spending money, not how they should be making money. One client wasted almost \$48,000 on mobile clicks with no sales, and was saving almost \$4,000 a month after the audit. If you hate paying Google, "Ask The PPC Manager" is your new 'must-read'. JavaScript Allongé solves two important problems for the ambitious JavaScript programmer. First, JavaScript Allongé gives you the tools to deal with JavaScript bugs, hitches, edge cases, and other potential pitfalls. There are plenty of good directions for how to write JavaScript programs. If you follow them without alteration or deviation, you will be satisfied. Unfortunately, software is a complex thing, full of interactions and side-effects. Two perfectly reasonable pieces of advice when taken separately may conflict with each other when taken together. An approach may seem sound at the outset of a project, but need to be revised when new require-

ments are discovered. When you “leave the path” of the directions, you discover their limitations. In order to solve the problems that occur at the edges, in order to adapt and deal with changes, in order to refactor and rewrite as needed, you need to understand the underlying principles of the JavaScript programming language in detail. You need to understand why the directions work so that you can understand how to modify them to work properly at or beyond their original limitations. That's where JavaScript Allongé comes in. JavaScript Allongé is a book about programming with functions, because JavaScript is a programming language built on flexible and powerful functions. JavaScript Allongé begins at the beginning, with values and expressions, and builds from there to discuss types, identity, functions, closures, scopes, and many more subjects up to working with classes and instances. In each case, JavaScript Allongé takes care to explain exactly how things work so that when you encounter a problem, you'll know exactly what is happening and how to fix it. Second, JavaScript Allongé provides recipes for using functions to write software that is simpler,

cleaner, and less complicated than alternative approaches that are object-centric or code-centric. JavaScript idioms like function combinators and decorators leverage JavaScript's power to make code easier to read, modify, debug and refactor, thus avoiding problems before they happen. JavaScript Allongé teaches you how to handle complex code, and it also teaches you how to simplify code without dumbing it down. As a result, JavaScript Allongé is a rich read releasing many of JavaScript's subtleties, much like the Café Allongé beloved by coffee enthusiasts everywhere. The Advertising Handbook is a critical introduction to the practices and perspectives of the advertising industry. Sean Brierley

explores the structures of the profession and examines the roles of all those involved in advertising including businesses, agencies, consultancies and media owners. The Advertising Handbook traces the development of advertising and examines the changes that have taken place from its formative years through to today's period of rapid change: the impact of new media, the rise of the ad agency, industry mergers, the Internet and digital technologies, and the influence of the regulatory environment. The Advertising Handbook offers a theoretical understanding of the industry and it challenges many assumptions about advertising's power and authority. Thoroughly revised and updated, it examines why companies and organisations advertise, how they research markets, where and when they advertise, the principles and techniques of persuasion and how companies measure performance. The Advertising Handbook includes: Illustrations from a range of high-profile campaigns including Budweiser, Barnardo's, Benetton and Club 18-30 New and detailed 'workshop' exercises accompanying each chapter Case studies and profiles of ad agencies and key media players A revised
